The image displays two types of complete clamps used in construction or industrial applications.

**Kömpe Kelepçe (Complete Clamp):** The top drawing shows a side view of a clamp with a central hole of diameter  $\phi D$ . The total width is  $L1$ , the height is  $H2$ , and the thickness is  $s$ . The distance from the center to the edge is  $10$ , and the distance from the center to the bottom edge is  $L2$ . The bottom view shows a square base with a central hole of diameter  $\phi D$  and a side view showing a rectangular base with a central hole of diameter  $\phi D$ . The bottom view is labeled **G0**.

**Genişlik / Width: 30 mm:** The bottom drawing shows a side view of a clamp with a central hole of diameter  $\phi D$ . The total width is  $L1$ , the height is  $H2$ , and the thickness is  $s$ . The distance from the center to the edge is  $L2$ . The bottom view shows a square base with a central hole of diameter  $\phi D$  and a side view showing a rectangular base with a central hole of diameter  $\phi D$ . The bottom view is labeled **G1-G8**.

3D models of both clamps are shown to the right of the drawings, illustrating their physical form and the central hole.
